

MATLAB SIMULINK: Blocksets

State-space: Derivatives

Integrator/PID I-term: Integral

Scope: Graph, shows time vs signal like $\text{plot}(t, y)$ in Matlab

terminator/1: Signal exists, don't display; get rid of warnings in simulink

Step: Generated Step input; Ex: Command changes from 0 to 1 at time $t=1$ s, used to test the autopilot response to sudden command (like pitch up)
