

Description of Aircraft

Reference Area: ~~1.13~~ 0.366 m^2

Reference Span: 1.13 m

Reference length: ~~1.13~~ 0.2 m

Envelope: 0.5 m

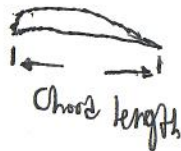

The surface area of
what's highlighted

Span in length

R_L is the wings length called
a wing chord

"PLt condition: N Alt & Alt

"Synthesis: xcg, wing position, vertical wing position

~~Sketch~~

~~main wing~~

~~$1.13(0.2) = 0.366 \text{ m}^2$~~

*Tail dimension must be
around 15-25% of
wing area

* $S_{\text{tail}} = 0.078 \text{ m}^2$
